

## IE LIBRARY DATABASES

### Business and Finance

#### **Alimarket**

Full text from 1982. Database covering economic and market information about companies in Spain in sectors such as food and beverages, non-food consumer goods, packaging, transport, logistics, and health. What's more, it offers access to Alimarket's confidential reports with weekly exclusive news on feeding and construction, biweekly news about the Hostelmart, Transmarket, household electrics, Sanimarket, Non-Food, and Punto Market, monthly magazines and annual reports.

#### **Audit Analytics**

*Audit Analytics* focuses on the accounting, insurance, regulatory, legal and investment communities; access to one of the best primary data source for the tracking and analysis of public company disclosures related to the audit, compliance, governance, corporate actions and federal litigation. The data sets are available individually as customized data feeds, and the integration of the data with internal information systems like CRM or compliance and risk management systems is enabled. Additionally, the *Audit Analytics* data feeds are designed for easy development of data mashups, custom applications and dynamic reports on legal company information, market intelligence, due diligence, compliance monitoring, and trend analysis.

**The Europe module** features databases covering public companies listed on European exchanges (EEA + Switzerland) with information on auditors, tenures, audit opinions, audit fees, key audit matters, and transparency reports.

Audit Analytics is a premium company intelligence service providing independent research to the investment, accounting, insurance, legal, regulatory, and academic communities. Audit Analytics provides detailed data on over 150,000 active audits and more than 10,000 accounting firms.

#### **Bank Regulatory Database**

Contains five databases for regulated depository financial institutions. These databases provide accounting data for bank holding companies, commercial banks, savings banks, and savings and loan institutions. The source of the data comes from the required regulatory forms filed for supervising purposes.

#### **Blockholders**

This dataset contains standardized data for blockholders of 1,913 companies. The data was cleaned from biases and mistakes usually observed in the standard source for this particular type of data. The data cleaning procedure is explained in

detail by Jennifer Dlugosz, Rudiger Fahlenbrach, Paul A. Gompers, and Andrew Metrick in their study "Large Blocks of Stocks: Prevalence, Size, and Measurement".

### **Bloomberg**

Bloomberg Professional is the interactive network of financial information that offers news, databases, graphs, computers, e-mail, multimedia information and electronic negotiation tools in a global product, equipped with the necessary technology to offer safe and trustworthy access to the international markets. It contains Analytical tools, Bloomberg Data, Monitors in real time, Bloomberg News and Communications.

### **BoardEx**

Access to the analysis of all the New Jersey's publicly listed and most notable private companies. Get the full profile (gender, age, DOB, employment, other activities (i.e. clubs, memberships, charities, etc.), education and professional achievements...) of the current and historic board members and senior managers of the more than 18.000 companies and 800.000 individuals analyzed.

It also includes information on each individual's network of connections, details on committee experience, compensation, and a year by year summary of the composition of the board for each company.

### **Business Source Ultimate. (Ebsco)**

Indexes business journals worldwide; covers marketing, management, MIS, POM, accounting, finance, economics and more. Also includes financial data, case studies, investment research reports, industry reports, market research reports, country reports, company profiles, and SWOT analyses. Includes the full text of articles from many publishers and links to full text options for other articles. 1886 to present. Updated daily -- publisher's website.

### **The CBOE (Chicago Board Options Exchange) Volatility Index® (VIX®)**

A key measure of market expectations of near-term volatility conveyed by S&P 500 stock index option prices. The Vix Index is considered by many to be the world's premier barometer of investor sentiment and market volatility.

### **Corporate Governance Data**

Offers a longitudinal view of corporate governance for all research needs through Historical Datasets, based on Board Analyst data from 2001 to 2007. The current data comprises board of director, CEO, compensation, and takeover defense data with over 250 individual data items, for more than 1500 companies a year. Created by The Corporate Library which is the leading independent source for U.S. corporate governance, executive compensation, and director network information and analysis. We have available the following years: 2008, 2009, 2010.

### **CRSP: Stock Database/Mutual Funds/1925 US Indices/1925 Treasury**

Renowned for its expertise in building and maintaining historical, academic research-quality stock market databases. The CRSP US Stock Databases provide a unique research source characterized by their unmatched breadth and depth. They include CRSP's unique permanent identifiers allowing for clean and accurate

backtesting, research utilizing time-series and event data, performance measurement, benchmarking, and securities analysis.

### **Compustat**

Compustat Global provides data covering publicly traded companies in more than 80 countries, representing over 90% of the world's market capitalization, including coverage of over 96% of European market capitalization and 88% of Asian market capitalization. S&P's EMDB covers 53 markets and more than 2,200 stocks in developing countries.

### **CUSIP**

The CUSIP Service Bureau, which is operated by Standard & Poor's for the American Bankers Association, exists for the primary purpose of uniquely identifying issuers and issues of financial instruments within a standard framework and disseminating this data to the financial marketplace via various media. The CUSIP Master Files provide CUSIP numbers, standardized descriptions, and additional data attributes for over 5 million corporate, municipal and government securities offered in North America.

### **DMEF Academic Data (Direct Marketing Educational Foundation)**

Four individual data sets, each containing customer buying history for about 100,000 customers of the nationally known catalogue and non-profit database marketing businesses are available through DMEF to approved academic researchers for use within academic situations.

Corporate names are anonymous and customer names and addresses have been removed, but the business type is indicated. ZIP codes have been retained (if possible) to provide a potential link to Census ZIP level demographics.

### **Dow Jones**

The Dow Jones Averages are comprised of The Daily and Monthly Dow Jones Composite (DJA), as well as The Dow Jones Industrial (DJI), The Dow Jones Transportation (DJT), The Dow Jones Utility (DJU), The Dow 10, and The Dow 5. The Dow Jones Industrial Average, the best known U.S. stock index, and the Dow Jones Transportation Average, the oldest U.S. stock index were created by Charles Henry Dow, co-founder of Dow Jones & Company, and maintained and reviewed by the editors of The Wall Street Journal. Dow Jones Indexes is the source of Dow Jones information and the provider of this data.

### **Econlit**

Published by the American Economic Association and provides bibliographic coverage of a wide range of economics-related literature. An expanded version of the Journal of Economic Literature (JEL) indexes of journals, books and dissertations, EconLit covers both economic theory and application. Also included are full-text of book reviews published in the Journal of Economic Literature since 1993.

### **Eikon**

Thomson Reuters Eikon contains Global Cross Asset Market Data that provides Global real-time Equity Exchange. Exclusive access to IFR markets information

and Metastock charts. Real-time FX Spot & Cross Rates and Forwards, OTC Precious Metals, and C&E exchange-traded coverage. Global Lipper Fund Database including Lipper Leader Ratings. Reuters News, Domestic News and Select Third Party.

### **Eurostat**

Eurostat is a European Union statistical information service. It includes economic indicators, general and regional statistics, information about the economy, financial data, population and social conditions, industry, trade and services, external trade, transport, environment and energy, and science and technology.

### **Executive Compensation**

Annual data from 1992 forward, on the top five executive officers within a company. Contains more than 33,000 executives. Executive compensation data on the top officers of over 3,000 companies. More than 220 data items. The ExecuComp database provides summary compensation data, as well as full details on executive stock and option awards as well as pension plans allowing you to see the complete picture of how executives are compensated. Furthermore, selected company financial information is included which allows you to compare executive pay versus company performance, providing you with previously hard-to-find information.

### **Factiva.com**

Factiva is one of the largest, most global digital business aggregators and archives in the world. Factiva's combination of global content and business search and monitoring technologies Offers users timely, reliable and relevant knowledge for business advantage. Dig deeper: search across more than 35,000 sources including US and international newspapers and continuously updated newswires, trade journals, websites, blogs, and multimedia.

### **Fama French & Liquidity Factors**

The Fama-French Portfolios are constructed from the intersections of two portfolios formed on size, as measured by market equity (ME), and three portfolios using the ratio of book equity to market equity (BE/ME) as a proxy for value. Returns from these portfolios are used to construct the Fama-French Factors.

### **Federal Reserve Bank Reports**

The Federal Reserve Bank Reports in WRDS contain three databases collected from Federal Reserve Banks: two of them come from Reports published from the Federal Reserve Board; the other one comes from the Federal Reserve Bank of Philadelphia.

### **IASB Comprehensive**

The IASB (International Accounting Standards Board) is the independent standard-setting body of the **IFRS Foundation** (which mission is to develop, a single set of high quality, understandable, enforceable and globally accepted financial reporting standards).

All meetings of the IASB are held in public and webcast. IASB follows an open and transparent process of publication of consultative documents, such as Discussion

Papers and Exposure Drafts. The IASB engages closely with stakeholders around the world, including investors, analysts, regulators, business leaders, accounting standard-setters and the accountancy profession.

### **IBES**

Thomson Reuters I/B/E/S provides detailed and consensus estimates featuring up to 26 forecast measures including GAAP and pro-forma EPS, revenue/sales, net income, pre-tax profit and operating profit, and price targets and recommendations for more than 60,000 companies in 67 countries worldwide. The Institutional Brokers Estimates System provides consensus and detail forecasts from security analysts, including earnings per share, revenue, cash flow, long-term growth projections and stock recommendations.

### **ISS (Institutional Shareholder Services)**

ISS, the Institutional Shareholder Services, was previously Riskmetrics.

**ISS Director Data** generates a complete picture of board-level decision makers and informs new investment ideas. It covers more than 150,000 global directors across 110+ countries, with history going back to 2013. It includes **R3K Company Vote Results** (2003-present) and **ISS Vote Recs** (add'l).

### **OptionMetrics**

Access to OptionMetrics data through WRDS ensures users easy access to the highest-quality options data for use in empirical research and/or econometric studies to develop and test derivatives trading strategies.

Use of OptionMetrics data continues to grow as financial professionals tap into the ability to leverage it for everything from analyzing market movement before mergers and acquisitions to investigating the relationship between option prices and daily stock return serial correlation and assessing the potential for insider trading.

### **Orbis**

It contains information on over 42.4 million companies and includes an advanced search and analysis software. It includes over 44,000 listed companies worldwide, over 25,000 banks and 7,700 insurance companies, over 14 million European companies from 46 countries, over 14 million from US and Canada, over 3 million from South and Central America, over 1.3 million from Japan, approximately 65,000 companies from other countries in Asia and 38,000 from Africa. As well as descriptive information and the company's financial data, ORBIS contains further information such as news, market research, ratings and country reports, scanned reports, ownership and M&A data.

### **OTC Markets**

Access closing quote and trade data. OTC Markets-specific compliance data includes OTC Marketplace designations (OTCQX, OTCQB, OTC Pink) and Caveat Emptor status. Key security reference data includes Security Type, Security Class, Security Status and Number of Market Participants

### **Penn World Tables**

The Penn World Tables provides national income accounts-type of variables converted to international prices. The homogenization of national accounts to a common numeraire allows valid comparisons of income among countries. Data comes from Alan Heston, Robert Summers and Bettina Aten, Penn World Table Version 6.1, Center for International Comparisons at the University of Pennsylvania, October 2002 (CICUP).

### **Philadelphia Stock Exchange**

The Philadelphia Stock Exchange founded in 1790 is the oldest organized stock exchange in the nation. As one of North America's primary marketplaces for the trading of stocks, equity options, index options and currency options, the PHLX continues to be a market leader in the development and introduction of innovative new products and services.

### **SABI**

IBERIAN BALANCES ANALYSIS SYSTEM: General information and financial data of 1.084.000 Spanish. It contains up to 10 years of historical data accounts of these companies, and allows the use of several search criteria: NIF, location, activity, employees, financial data, etc. The system provides reports in several formats, detailed analysis, statistics, illustrated balances, and comparative graphics. The information can be directly exported to Excel and expressed in several languages and currencies. The database is updated every three weeks (additions of new companies, updates of accounting data, software upgrades...)

### **SEC Order Execution**

On November 15, 2000, the SEC adopted new rules aimed at improving public disclosure of order execution and routing practices. As a result of Rule 11Ac1-5, market centers that trade national market system securities must make monthly, electronic disclosures of basic information concerning their quality of executions on a stock-by-stock basis, including how market orders of various sizes are executed relative to the public quotes and information about effective.

### **STATISTA**

Statista.com consolidates statistical data on over 80,000 topics from more than 22,500 sources and makes it available on four platforms: German, English, French and Spanish. Statista aggregates statistical data on over 600 international industries from more than 18,000 sources, including market researchers, trade organizations, scientific journals, and government databases.

### **TRACE OTC Corporate Bond and Agency Debt Bond Transaction Data**

TRACE - Trade Reporting and Compliance Engine. Corporate bond market real-time price dissemination service. Bringing transparency to the corporate bond market, it helps create a level playing field for all market participants by providing comprehensive, real-time access to corporate bond price information.

### **Wharton**

Wharton Research Data Services (WRDS) is a web-based business data research service from The Wharton School at the University of Pennsylvania. Developed in

1993 to support faculty research at Wharton, the service has evolved to become a common tool for research for over 290 institutions around the world. WRDS is the de facto standard for business data, providing researchers worldwide with instant access to financial, economic, and marketing data through a uniform, web-based interface. This hosted data service has become the locus for quantitative data research and is recognized by the academic and financial research community around the world as one of the leading business intelligence tools.

## **Legal and Tax**

### **HeinOnline**

HeinOnline is a premier online database containing more than 173 million pages and 270,000 titles of historical and government documents in a fully searchable, image-based format. HeinOnline provides comprehensive coverage from inception of more than 2,700 law-related periodicals. In addition to its vast collection of academic journals, HeinOnline contains the entire Congressional Record, Federal Register, and Code of Federal Regulations, complete coverage of the U.S. Reports back to 1754, and entire databases dedicated to treaties, constitutions, case law, world trials, classic treatises, international trade, foreign relations, U.S. Presidents, and much more.

One of the databases more innovative thanks to the interplay of all of its contents (legislation, case law, doctrine, covenants, illustrations, charts, forms and models) with Mementos legal data. Ensuring maximum rigor in consultation, it provides a precise, practical and complete to the issues raised by improving efficiency in the activity of professional solution. It gives access to QMemento Base Mercantil, QMemento Plus Financial, QMemento Plus Social, QMemento Abogacía, El Derecho Esencial Plus and El Derecho Internet.

### **VLex España**

Database with full-text access of law, jurisprudence, contracts, forms, patents, etc. It also contains books and journals from more than 120 countries in different languages.

### **VLex Global**

Legal information from Spain and International. Maximum editorial rigor. More than 10 years of history developing high value-added content. Proven and endorsed by over 900 partner publishers that incorporate vLex books and magazines full text information. Exclusive publishing high value content produced by the authors of each country's prestige and guarantee daily and continuous updating.

### **Westlaw International**

Offers access to nearly 30,000 databases, across all areas of law. It contains international and multinational materials from institutions such as the ICSID, International Criminal Court of Yugoslavia & Rwanda, ICJ, WTO, UN and GATT. It also gives access to materials of various countries, and to legislation, cases, journals, books etc. from the following jurisdictions: Australia, Canada, European Union, Hong Kong, United Kingdom and United States. It is also a source for non-

legal materials, gathering almost 11.000 specialized & news publications from all over the world.

### **Westlaw UK**

Provides access to vast, but easily searchable databases of case law, legislation, news, journals, commentary, current awareness alerts, and EU legal materials. Combined with a user-friendly interface, it ensures that your searches are easy to perform and you can find the legal information you need to make the difference.

## **Multidisciplinary Qualitative Databases**

### **ABI/INFORM Collection**

Delivering over 5,745 journals, nearly 80% of which are in full-text, ABI/INFORM Collection is the most comprehensive business database on the market today. Also covers dissertations, SSRN working papers, market reports, industry reports, business cases, local and regional business information, and global and trade news. Includes full text of The Wall Street Journal, Eastern Edition and digital images of selected key business journals from the first issue to the present. A complete database comprised of ABI/INFORM Global, Dateline, and Trade & Industry.

### **Academic Research Library (Business / The Arts / Literature & Language / History / Health & Medicine / Science & technology / Social Science)**

Provides one-stop access to more than 4,000 periodicals from one of the broadest, most inclusive general reference databases ProQuest has to offer. Search from diversified mix of scholarly journals, trade publications, and magazines covering over 150 academic disciplines.

### **Avery Index to Architectural Periodicals**

It offers a comprehensive listing of journal articles on architecture and design, including bibliographic descriptions on subjects such as the history and practice of architecture, landscape architecture, city planning, historic preservation, and interior design and decoration. It contains over seven hundred American and international journals including not only scholarly and popular periodical literature, but also publications of professional associations, American state and regional periodicals, and the major serials on architecture and design of Europe, Asia, Latin America, and Australia.

### **Communication & Mass Media Complete**

Communication & Mass Media Complete provides the most robust, quality research solution in areas related to communication and mass media. CMMC incorporates the content of CommSearch (formerly produced by the National Communication Association) and Mass Media Articles Index (formerly produced by Penn State) along with numerous other journals in communication, mass media, and other closely-related fields of study to create a research and reference resource of unprecedented scope and depth encompassing the breadth of the communication discipline. CMMC offers cover-to-cover (“core”) indexing and abstracts for more than 570 journals, and selected (“priority”) coverage of nearly

200 more, for a combined coverage of more than 770 titles. Furthermore, this database includes full text for over 450 journals.

**Ebsco** Includes the databases: **Business Source Complete, Business Source Ultimate, Regional Business News, eBook Collection (EBSCOhost), Library, Information Science & Technology Abstracts, Audiobook Collection (EBSCOhost)**. "Business Source Complete" offers the full text of over 4.000 academic publications in the field of business and allied disciplines, and includes over 10.000 e-Books. It also contains reference works, reports, EIU publications, etc. It also provides access to the list of e-books subscribed by IE Business School.

### **Ebook Central**

An online digital library of full texts of over 700,000 scholarly e-books. Provides a set of online database collections that combine scholarly books from over 435 academic, trade, and professional publishers. It also includes sheet music and government documents. Additionally, Ebook Central offers content services for customers to distribute their own PDF content online.

**Electronic Journal Services (EJS)** A portal providing the full text of periodicals subscribed by IE Business School (see list of subscriptions). It also provides a contents table of over 8,000 titles, and journals can be searched by title, keywords in article titles and abstracts, as well as authors.

### **Elsevier Science Direct**

Multidisciplinary database including academic and professional journals in the field of business and related disciplines. It provides access to the full texts of Elsevier Journals subscribed by IE Business School, as well as citations and abstracts of all the academic and professional journals published by the Elsevier group.

### **Emerald**

Database that gives access to the full text of various journals (see journal titles subscribed and summaries of articles published by the MCB University Press). The journals include the following subjects: economy and the company, human resources, education, quality, marketing, engineering and documentation.

### **ISI Web of Science- Institute for Scientific Information (ISI, Philadelphia, USA)**

Suite of resources which facilitate the analysis of the evolution, impact and state of the art research in the different scientific, technological and humanistic subject areas, as well as the curricular assessment of researchers, thanks to the information collected in the databases of the Institute for Scientific Information. It demonstrates the influential factors of journals in the fields of science and technology, citation indexes, biographic, and scientific indicators.

### **Jstor (Business Collection) / (Arts & Sciences II Collection) / (Arts & Sciences I Collection) / (mathematics&statistics collection)**

JSTOR is a multidisciplinary database of academic and scientific journals that start with Issue n<sup>o</sup>1. Because of its archival system, JSTOR is not a current issues database, as there is a gap between the most recently published journal issue and the content available in JSTOR. The Business Collection, to which the IE Business

School library is subscribed, brings together core titles in economics and finance, accounting, labour relations, marketing, management, operations research, and risk assessment.
