

4 WAYS to find Academic Articles

ie
UNIVERSITY
LIBRARY

01

LIBRARY CATALOG

The Library Catalog is often the best starting point. **It allows you to search across a wide range of academic resources in one place.** To refine your results, you can apply filters such as peer-reviewed or Open Access (OA) content, ensuring quality and accessibility. The advanced search option also helps you narrow down results by topic, author, date, or publication type.

HIGH INTEREST JOURNAL LIST

If you want to focus on high-impact research, the High-Interest Journal List is a valuable resource. This curated selection **highlights leading journals across disciplines and integrates article-level metrics, helping you identify influential publications and trending research.**

02

GOOGLE SCHOLAR

Google Scholar becomes even more powerful when connected to the IEU Library. **By activating the Library link, you can see direct access options to subscribed content while browsing Scholar results.** This means you can search in a familiar interface while still benefiting from full-text access provided by the Library, saving time and avoiding paywalls.

03

ASK-ADEMIA

When in doubt, **Ask-Ademia is your AI-powered assistant designed to support your research process.** It can help you find relevant articles, guide your searches, and suggest resources tailored to your topic. It's a quick and intuitive way to get unstuck and move forward with your research.
