

# Copyright Basics Every Student Should Know

## You can use:

- Open access images
- Data with clear licences
- **Your own figures and tables**

## It depends:

- Images from books or articles
- Tables adapted from other works

### 👉 Always check:

- License
- **Attribution requirements**

## You should avoid:

- Random images from Google
- Content without clear authorship
- **Material without permission**

### ✓ Always remember

If you didn't create it, check the license and cite the source.
