

How to cite

Reference Managers

Reference managers help you collect, organize, and cite your research sources efficiently.

They allow you to import references from databases, store PDFs, and automatically generate citations in different styles.

Types of citations

 **APA:** Social sciences, psychology, education

 **Harvard:** Business, management, humanities

 **MLA:** Literature, languages, culture

 **Chicago / Turabian:** History, arts, humanities

 **ISO 690:** European standard, multi-disciplinary

Useful for managing large reference collections and academic papers

Combines reference management with options for annotation and collaboration

Simple tool to collect and organize references directly from your web browser
